

SEASON'S GREETINGS

Dear Family,

We are so excited to spend time with you all this Christmas season!

This year we are trying as a family to reduce the amount of plastic waste that we are creating and we need your help.

The children have expressly asked for the following gifts: x, x, x,x. However they would also love to add some books to their growing library, they would be particularly interested in the following titles : x, x, x, x.

They call also always enjoy the following items; crayola pip squeak markers, blank sketchbooks, chocolate, some money for their savings, an outing to x, or x computer game. Handmade items are also always a welcome and treasured treat!

Thank you so much for thinking of them,

Love,

me
